EXPERIENCE

Western Union, Pune — Senior Associate

December 2017 - PRESENT

From past one year, I have been working on migrating our [website](#) from AEM to WordPress using GatsbyJS to create static pages for better performance

We did various optimization on our site to increase page speed performance. We went from 15 lighthouse score to 85 for desktop.

I have designed and developed various UI interfaces on react in accordance with inputs provided by business.

Cognizant, Pune — Programmer Analyst

March 2014 - December 2017

I started my career with Cognizant.

There, I was involved in various Projects for clients like Barclays, LPL, Ericsson, Daimler, UPS etc.

My main task was to translate design team's UX wireframes and mock-ups into responsive, interactive features, and consuming rest api's using front end technologies for various products.
